

LAS VEGAS BILLBOARD INTELLIGENCE TOOL (v1)

Developed by Engineering Realty LLC

For Media Buyers & OOH Operators

- Identify and analyze billboard inventory across Las Vegas
- Quickly export market-wide datasets for planning and negotiations
- Offline-ready CSVs for internal modeling and presentations
- No subscriptions or API keys required

For Real Estate Brokers & Investors

- Link billboard locations to parcel ownership and zoning context
- Evaluate land use, frontage, and redevelopment opportunities
- Support acquisition, leasing, and compliance analysis
- Use exported data for underwriting and advisory work

Pricing

Base Desktop Application (v1): **\$3,500 one-time**

Optional Full Market Export: **\$1,500**

Future datasets available: parcels & lots, zoning, STR licenses, business licenses, and additional municipal GIS layers.
